the story

made for you, with help from you.

The Comfortel *mov*a hairdressing trolley was designed for salons, and developed with hair stylists. We went out to see what hairdressers really wanted and needed. We watched, we asked, and researched in depth on how you worked, so we could create a personal moving workspace for you to create with pride.

Finally we designed a thoughtful, modern trolley that suits the way you work and compliments your salon space. With clean lines and classic proportions, every function and feature was considered.

Discover the features

With the perfect blend of light and dark, elegance and rawness this hairdressing trolley gives you the freedom to define style with pride. Move it, work on it, store things in it. It's your personal workspace.

Your very own personal assistant

mova is designed to keep up with the pace of your work. We have transformed the idea of a salon staple into a personal mobile work assistant that moves and works with you.

4 storage drawers

It has generous storage

Perfect for storing all your hair tools, *mova* boasts four roomy drawers and an expandable workspace that easily fits your hairdryer, straightener and tint bowls. Hang your towels on the side too.

Hard metal finishes

So smooth and strong

With a rounded steel frame, and tapered furniture inspired legs, *mova* is strong and sturdy while proving the salon staple trolley can be a designer statement piece.

Materials that matter

Exclusive to Comfortel, *mova* showcases our love for materials. We wanted it to be a show stopper, so we designed it with sleek finishes, hard metals and easy to clean surfaces to make it easier for you to define style with pride.

Heat proof & washable removable surfaces

Expandable workspace with hair tool holder & towel holder

Styling made simple with more workspace.

Expand *mova's* side drawers to create a workspace that's larger than life. Easily hang your towel, store your hair tools or simply lay out your tint bowls and foils with more room to move.

It's sleek for the minimalist

A lesson in chic simplicity, there are no handles on the drawers to spoil those clean lines; just a lip that's easy to slide open. The curved frame is wrapped with aluminium and contrasts with the heat proof inserts.

Personal powerboard & USB*

EU

AU/NZ

UK

Personal Power & USB*

The unique trolley that allows you to operate your electrical tools from the back. With only one electrical cord plugged into the wall that controls the power, multiple tools can be used (behind the chair) and no longer at the wall.

Easy wheel hubless castors

Heat proof mats & easy wheel hubless castors

We considered all your must haves, so we created removable heat proof mats tailored to fit your hair tools that's easy to clean. The designer hubless castors make it a pleasure to roll around the salon.
